

BIODEGRADABLE ECOLABELLING PROGRAM (TYPE I) (ISO 14024)

We offer independent verification and assurance services on type I environmental labels to enhance transparency and confidence in polyolefin products' biodegradability. The LDPE, HDPE, and PP products that comply with the Biodegradable Ecolabelling program can use the mark in their product.

LIFE CYCLE ASSESSMENT (LCA) (ISO 14044)

We conduct Life Cycle Assessment (LCA), where LCA is a systematic approach for evaluating the environmental impacts of a product or service throughout its entire life cycle, from the extraction of raw materials and manufacturing, through its use and disposal. Conducting LCA and sharing the results demonstrates a commitment to transparency and environmental responsibility.

CLIENTS AND PARTNERS

WHEN YOU WANT TO BE
ASSURED

ISO 17029 | ISO 14065 | AA1000AS

ASSURANCE, VERIFICATION, VALIDATION (AA1000AS)

We hold an AA1000AS License (000-460) for Assurance Provision that verification can be conducted at either a reasonable or limited engagement level in accordance with the AA1000 Assurance Standard.

GHG INVENTORY VERIFICATION (ISO 14064-1)

We stand poised to guide you through the formulation of Scope 1, 2, and 3 GHG emissions and assist in navigating disclosure requisites. We verifies organisations' emissions of scopes 1, 2 and 3 amid the global drive to curtail Greenhouse Gas (GHG) emissions.

GHG REMOVAL VALIDATION & VERIFICATION (ISO 14064-2)

We provide validation and verification services aligned with ISO 14064-2, empowering companies to offer stakeholders transparency when planning GHG reduction projects and reporting on project performance.

PRODUCT CARBON FOOTPRINT (PCF) (ISO 14067)

We offer Cradle-to-Gate Life Cycle Assessment

Companies disclosing MyCO2-verified PCFs can seize a competitive advantage, elevating brand reputation and amplifying sustainability performance.

SUSTAINABILITY REPORT (ISO 14016 | AA1000AS)

We offer ESG Assurance, an independent verification process for sustainability disclosures and reporting on GRI, SASB, and TCFD standards. Our verification procedures adhere to relevant standards such as the AA1000 Account Ability Principles Standard, ISO 14016, and the GHG Protocol.

SELF-DECLARED ENVIROMENTAL CLAIM (TYPE II) (ISO 14021)

We verify the Claims on "Eco -Friendly, Compostable, Energy Efficiency"

Refers to a specific environmental claim by a company about its product or service. These claims are typically based on self-assessment or self-testing with optional third-party verification.
